

Hear What We Have to Say:

LISTEN!

Like all good drug stores, we employ only Registered Pharmacists who correctly compound Prescriptions, using the identical medicines your doctor wants you to have. This is what we should do and we disclaim any special credit for doing the right thing. It is what everybody should do and do it without boasting about it.

THAT ISN'T ALL WE DO.

At this particular time we are absolutely saving patrons of our store 25% to 100% on every item bought from our good, clean stock of drugs, sundries and toilet preparations. This applies to prescription work, too. It's not because we are "cutters," but simply because we are Quitting the Drug Business.

C. V. NEWELL DRUGGIST

We have been in our present location for the past four years. Our prescription business as well as general drug business has increased each year, all of which speaks for itself. I am a graduate pharmacist and registered. That the physicians of Oklahoma City consider us competent pharmacists; our prescription file, will convince you. When you have a prescription to fill call Newell, Walnut 7238. Free and prompt delivery service.

Bring Your Prescriptions to Any of These Drug Stores.

All Have Registered Pharmacists

Guaranteed Prescription Druggist

Do you patronize drug stores? Of course you do. Get your medicines and have your prescriptions filled there? Of course. Do you know there is a law in Oklahoma that says that all drugs, medicines and poisons shall be sold only by registered pharmacists? The druggists whose advertisements appear on this page are all guaranteed to have one or more registered pharmacists in charge of their prescription case. The compounding of a prescription is regarded as a matter of most serious importance to these druggists. They use nothing but the highest quality of drugs, which have answered certain standard tests. Highest quality, together with prompt, efficient and polite service is the motto of the stores on this page.

You Can Buy from Druggists on This Page With Full Assurance of Positive Safety

Terminal Arcade

It will be a revelation to the average drug store patron to know the truth about drug store abuses.

Several down town and many suburban drug stores are owned by people who are not pharmacists. Where the owner of a drug store is not a pharmacist, investigation always shows that the quality of drugs sold is of a low standard. The owner not being a pharmacist, has no pride in his business as a profession—his only desire being to make money.

In such stores quality is not considered—neither is the health of the community—their prescription work is shabby and of a low standard.

In nearly every instance where a drug store (7) in Oklahoma or any other state, is found doing illegal business, selling liquor or narcotics, investigation has shown that the owner of the store is not a druggist.

Our drug and prescription business is our pride. We serve no lunch and we have no kitchen to take the time and place of our prescription department.

We make our own pharmaceuticals. We court investigation. Every physician in Oklahoma City knows the quality of our prescription service.

All drug and prescription work is handled by registered pharmacists here.

Have your physician telephone us your prescription. We will compound it properly and deliver it to you promptly.

Remember we are in the Terminal Arcade and you can leave your prescription on your way to take a car.

Yours for prompt, accurate service.

SCOTT-ALCORN CO.

The VICTORIA DRUG CO.

It is deplorable, said Dr. J. D. Ballard, of the shore corporation, that such articles as appeared in Tuesday's Times should escape the eye of the business manager, or that such cheap attempts to make party capital should evaluate from a paper which is just now proclaiming fairness and justice to all as its motto. Now is it any the less reprehensible that such an opportunity should be seized upon and exploited at so much per inch to array a series of the "professors" against the offending abest. I believe as little in bowing one's own horns as a pharmacist as I do in extolling one's own skill as a physician. The practice of the pharmacist should be free from having induced me with the belief that the individual should be free to choose his pharmacist as his physician without the influence of personal recommendation or advertising. The responsibilities of either profession are so great that the public instinctively distrusts the man who seeks to assume them for commercial gain. I believe, also, the patient medicine traffic should be relegated to the peripatetic vendor who ignorantly panders to the public either for himself or his employer. The character of the Victoria Drug Co. is to remain open for shelter and service, we will probably not stop at the acquisition of the much business, but also flowers, fruit and timables.

We subscribers should not feel the sting of being cut off from the list of the elect who proclaim their reliability through the columns of the morning paper at so much per inch. We have so many things on the downtown stores in the way of cheap rents, adequacy of personal supervision, small payrolls, etc., etc., that our lower prices supply the advertising fee which they have to pay. As to reliability there are few, if any, suburban pharmacists who will not compare favorably with the uptown people. Whether or not I am worthy of confidence I leave to those who can pass upon the merit with less personal bias than I could be expected to show.

As to the practices demanded by the Times, I personally know that such abuses have existed in the trade. Whether or not I cannot say. The trouble is in the way of city taxes. In 1914, Mr. L. H. Ladd, a staunch Republican and the father and sponsor of one of the pharmacy laws, in its passage, and have been familiar with the board of pharmacy ever since. Many violations of its intent were committed while the public was being educated up to the necessity of its enforcement. No one could have been better qualified to popularize the measure than Mr. Ladd, and Mr. Burton entered into the spirit of Mr. Ladd's administration and tax laws. No doubt, but the time has come when the law can be enforced to the letter, and believe its administration has been placed in competent hands.

PENSION FUND SHY

Workers of America, district 21, finds itself unable to meet the demands upon that special fund, under special constitutional provisions. This matter will be given consideration at the district convention to be held here September 22, on which occasion charges

against President Pete Hanraty are to be considered.

When the pension fund was provided, beginning with the year 1913, it was provided that decrepit miners over the age of sixty years who had been in the organization five years

prior to the first day of that year should receive monthly pensions at the rate of three dollars per week.

Disabled miners were to receive like pensions. The fund was provided by fixing dues at fifteen cents a week

upon all members of the union in the district.

The first year that assessment proved sufficient but, in 1914, the demands required nearly all the fund, and with the first six months of the present year gone, the district organi-

zation finds itself unable to pay all applicants.

There are 117 locals in the district with approximately 16,000 members. It is estimated that there will be between 200 and 250 delegates in the September convention.

Think of losing \$1,000 and more on a Class D ball club in less than three weeks. Which, however, seems to be the case, as the umpires say that attendance up until the present week, at least, have been good in Tulsa.

McALESTER, Aug. 14.—With nearly 400 old age pensions on the list, the district organization of United Mine
